

Safety Squad

We want the children in our school to feel safe when they are here. We recognise that sometimes people might feel worried about something, and we want children to know what to do if this happens to them.

Our Safety Squad plays an important role in our school community and help children to feel safe and happy when they are here.

They have identified the follow list of things that they do in our school.

- To talk to people if they need us.
- To help make people feel safer in school.
- Passing on information to children about important things.
- Find out what our children think – this is called pupil voice.
- Answer questions that children might have.
